The MMS Coach Training in Vietnam

Vision and Goals

Coaching is a powerful tool to help individuals to maximize their personal and professional potential through a creative thinking process. It helps clients to realize their vision, mission in life, motivate them to change and focus on their dreams, by their choice. LCV wishes to build a coaching hub to enhance people's lives. The hub is where coaches are trained and certified with International Coach Federation (ICF) standards. The ultimate vision is to have one coaching centre in each and every province of Vietnam, in Vientiane, Laos and Phnom Penh, Cambodia. LCV wishes to be the coach pioneer with ICF credentials in Indochina countries.

LCV and The MMS Institute* – officially certified by ICF, have a professional coach training with international standards in Vietnam. This intensive coach training program teaches coaching from the inside-out, using the original MMS coaching method.

The mission for our Coach Training is to train individuals to become brilliant coaches. At the completion of the program, each participant will be able to efficiently clarify the underlying issues, get to the essence of the matters, determine specifically what the client ideally wants, and support the client in strategizing an action plan so that he or she can fulfill or manifest their vision. It is our goal for students participating in our program to fully embody the ICF Ethical standards along with the ICF and MMS Core Competencies, and to be prepared to professionally coach individuals either independently or within an organizational setting.

Who is MMS Coach Training for?

The MMS Coach Training is for those who have a deep calling to help others. If people continually seek you out to provide clarity in their lives or assist in resolving issues, then that might also be considered a sign. The MMS Coach Training is for those whose jobs require them to have change management skills along with **emotional intelligence** to support transitions, shifting expectations, and emerge decisive in the face of changing times.
